Personal Search Plan

- › How did you go about doing your lit. search?
 - Which steps, databases, types of publication?
- › How are you organizing your search results?
 - Reference managers? Other?
- › What were useful insights (name at least one)?
- › What were the challenges (name at least one)?

Outline Personal Search Plan

- › Research question
- › Databases
- › References you started out with (given by supervisor)
- › Search terms
- › Search string(s)
- › Summary of identified sources

Find out as much as you can about each others' projects

1) What is the topic?

- What is the research question that you want to answer, the problem you want to solve?

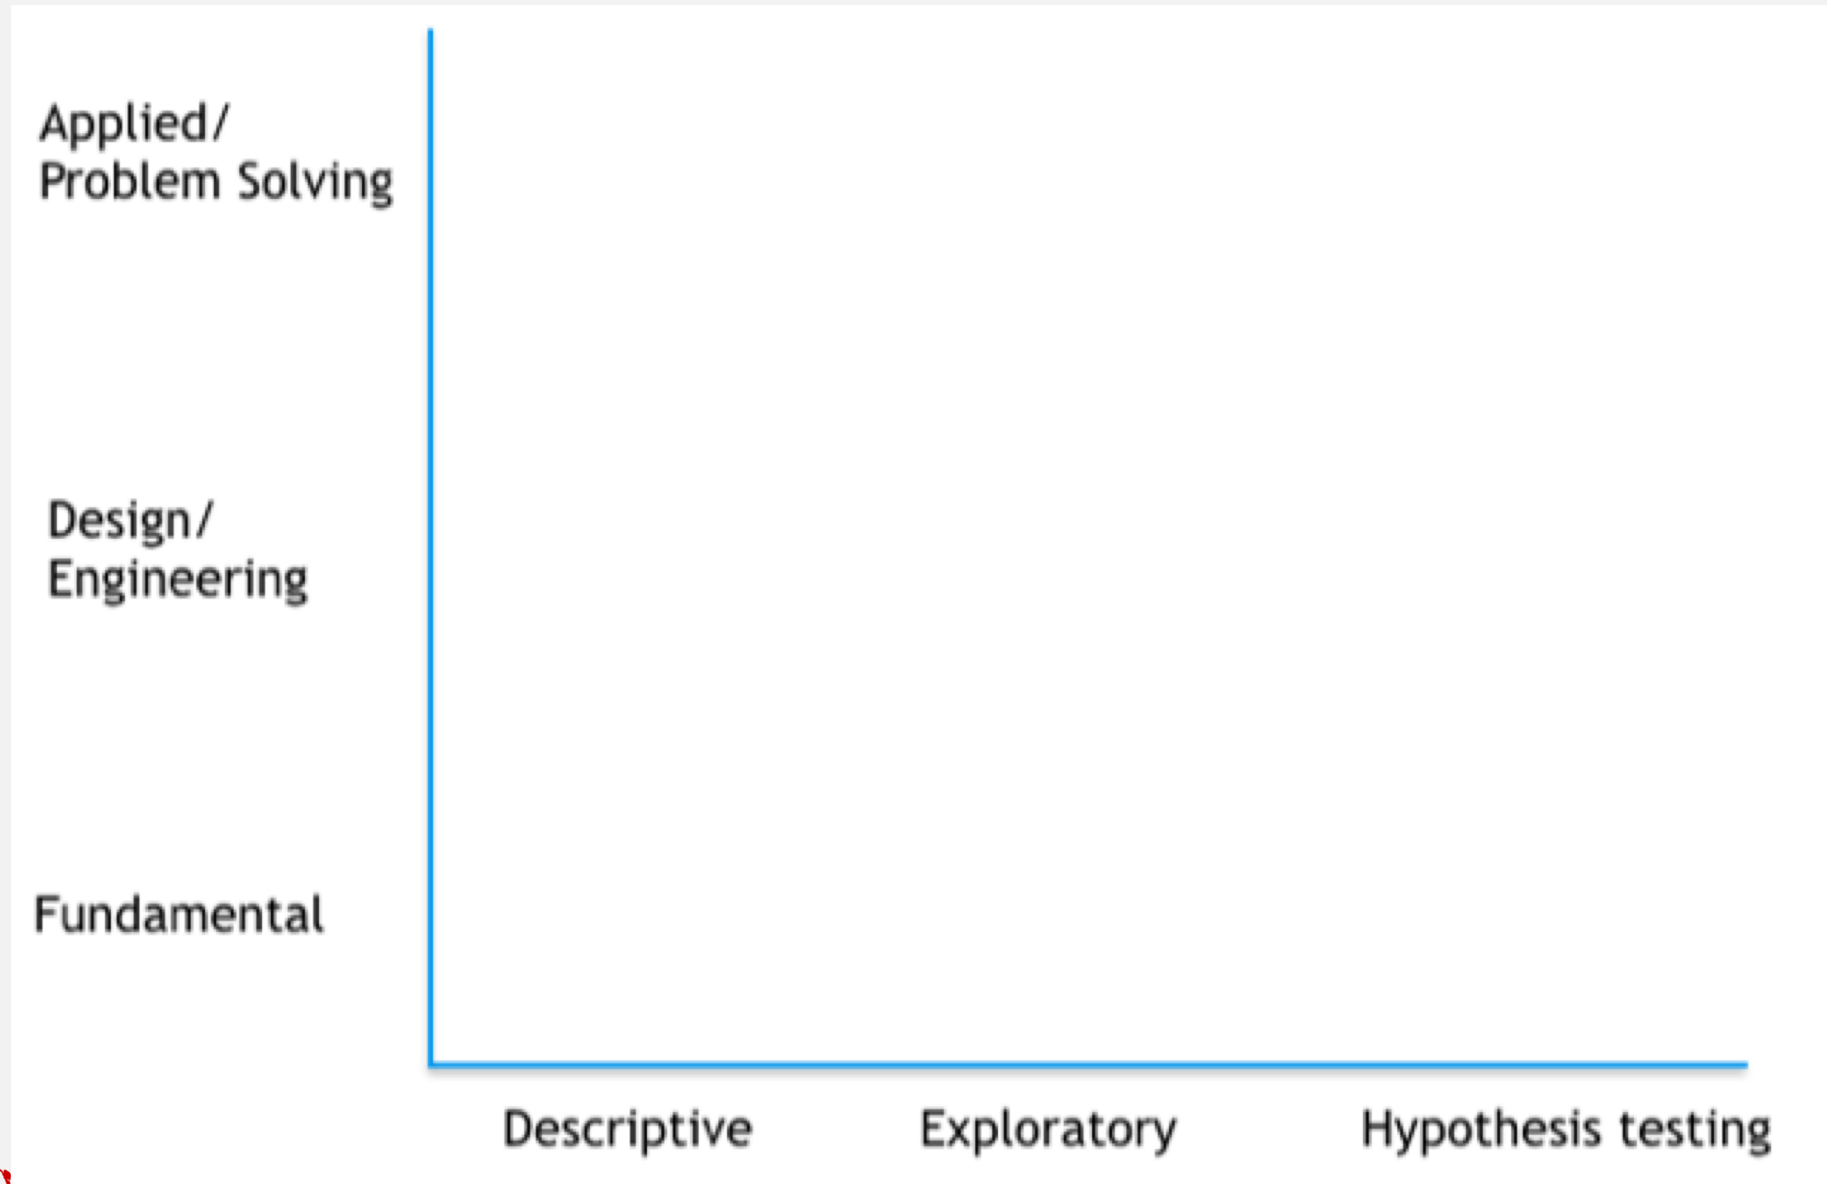

2) Why is this question/problem relevant?

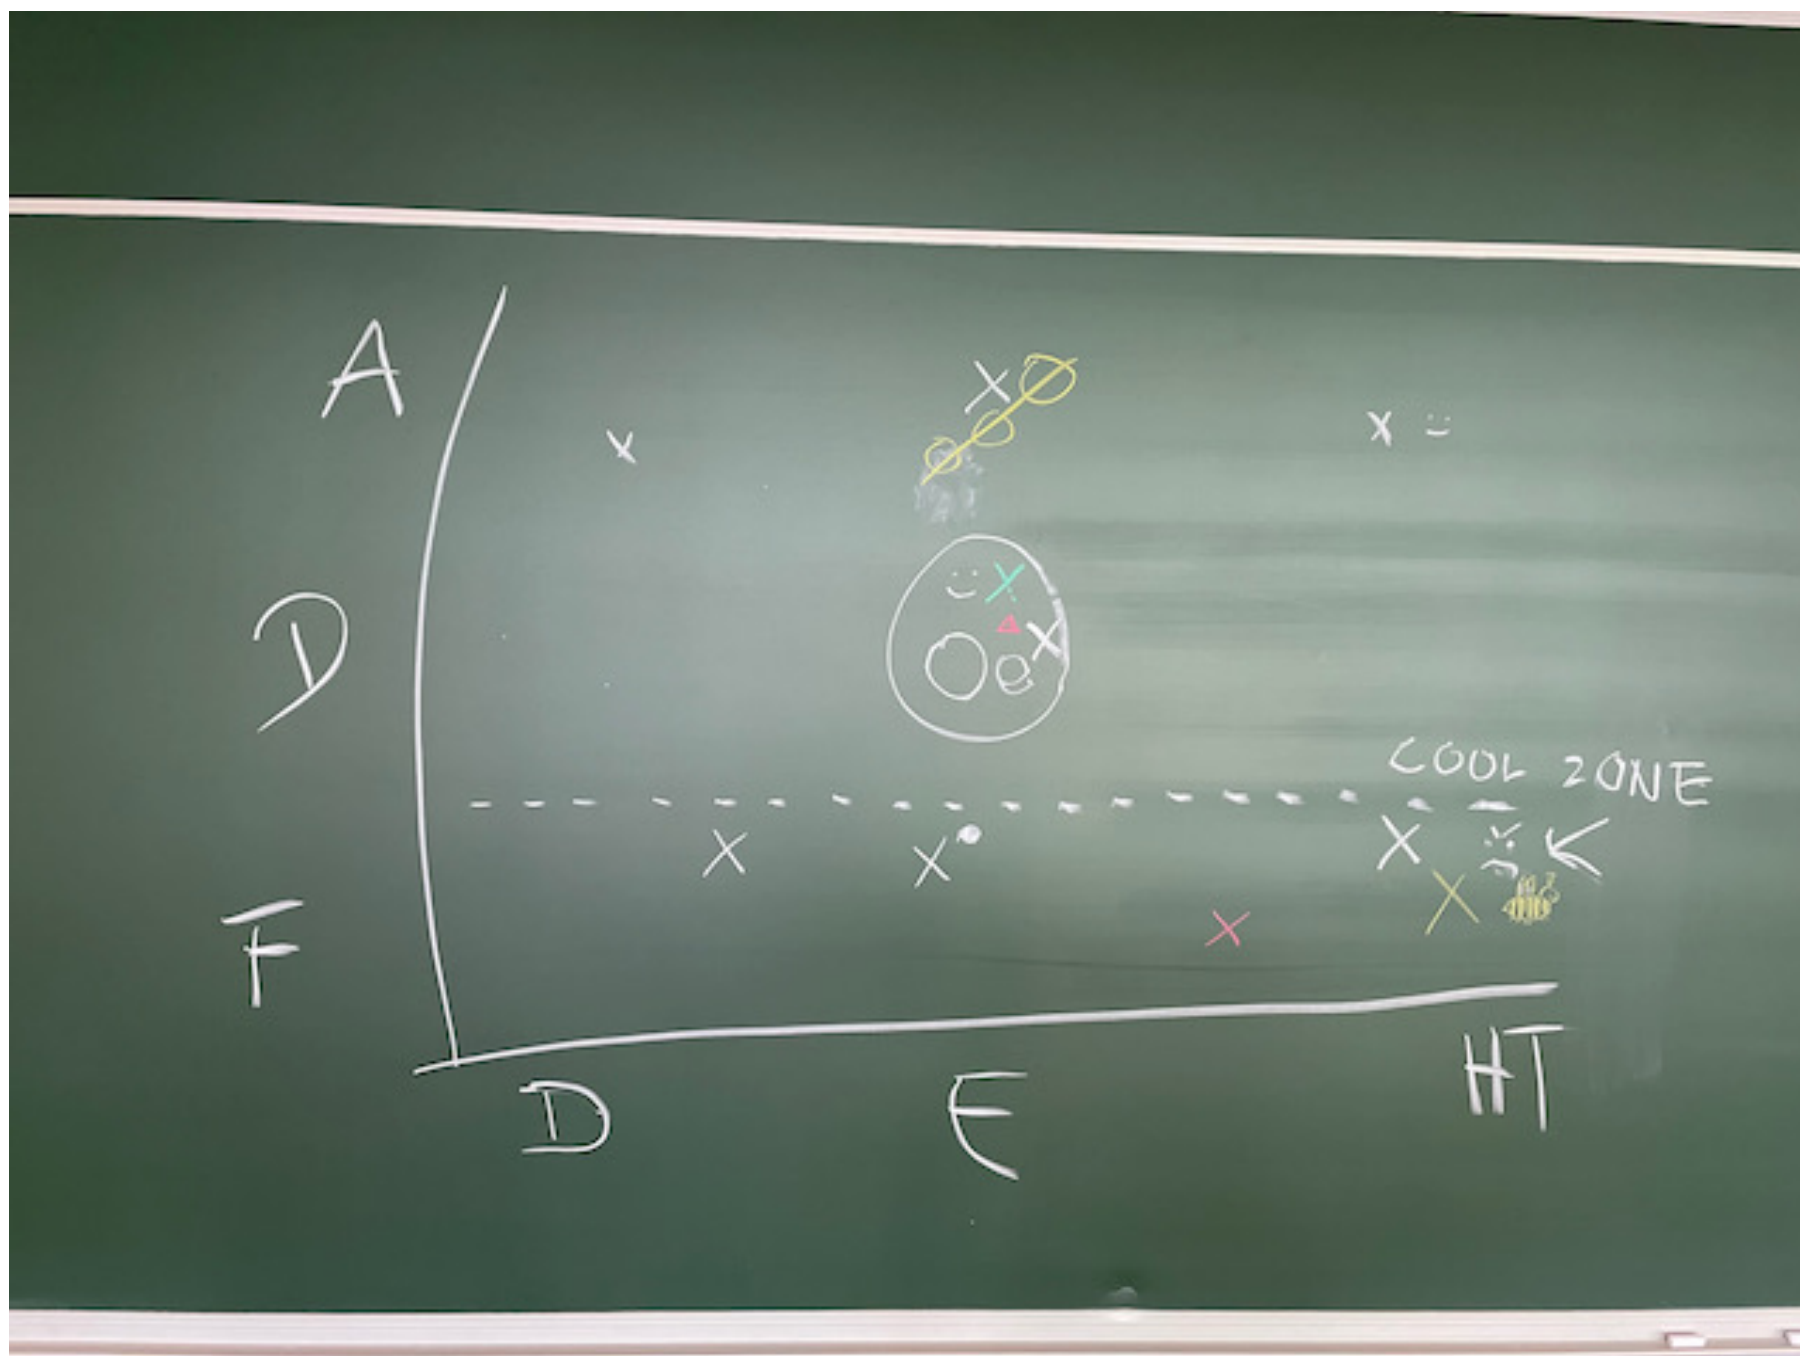

- From a theoretical and/or practical perspective

3) How are you planning to answer this?

- Methods? Manipulation? What will you measure?

Where are your projects on the two dimensions?

Next week

Project Management

→ There is no assignment for the course for next week, other than keep working on your project ;)
